1. [REDACTED] was in to say good-by prior to his departure for [REDACTED] where he will be the Logistics Officer. He was very pleased indeed with this assignment.

2. I talked to [REDACTED] wanting to build a health club on Government property. He will explore the legal aspects of this and report back to me.

3. Emmett Echols talked to me about the Summer-Only Employees' Program. He wanted to employ dependents of deceased and retired employees provided they were otherwise qualified in all respects. I told him that I would go along with this.

4. I telephoned Mr. Kirkpatrick and reminded him that he was going to get himself on the Orrick committee to study the Herter report. He said that he still intended to do this and would take it up with Bill Orrick sometime soon.

5. I also talked with Kirk about the possibility of nominating Dick Helms for the Rockefeller Public Service Award, and I sent him a letter which he could use as a basis for discussion with General Carter and Mr. McCone.

6. I suggested to Emmett Echols that we announce, through an Employee Bulletin, that Art Lundahl has been selected to receive the National Civil Service League Award and thereby try to drum up some business for the dinner in March, at which time it will be presented.

8. John Tietjen and I met with [REDACTED] to talk about the relation- 25X1A9a  
ship between the A&E Staff and TSD psychologists. John made a very strong  
argument that he was opposed to psychologists or anyone else administering  
drugs and that he intended to get this sorted out once and for all. Dan is going  
to go back and talk to Dick Helms and [REDACTED] about this, after which 25X1A9a  
we will presumably have another meeting.

9. General [REDACTED] alerted me that some of his men at our laboratory  
had found a way to monitor the KW-26 from outside the building. I asked him to  
keep this very quiet; he is having the National Security Agency come in and  
evaluate the whole problem immediately. He reported to me later that this did  
not look as serious as it did originally. NSA was very appreciative for the information  
but believed that this was an isolated machine and that the whole group was not vulner-  
able. (General [REDACTED] will keep me informed.)

10. Jack Earman advised me that he had heard it was possible to use a  
thermofax copy of a dollar bill to get change from the machine on the first floor.  
(I have asked [REDACTED] to look into this very quietly and to let me know  
what he finds out.)

11. [REDACTED] advised me that General Carter will be going to the Far  
East in March. He probably will go to [REDACTED] for the [REDACTED] conference tentatively 25X1A6a  
scheduled for 18-20 March. As nearly as I understand it, he will pick up an airplane  
and go to [REDACTED] Saigon, [REDACTED] and 25X1A6a  
[REDACTED]. I told Ernie that I might like to accompany General Carter on this trip  
since it will cover all of the points, and one or two additional places, that I would  
like to visit on my trip.

12. I talked with Emmett Echols, as well as [REDACTED] about the 25X1A9a  
[REDACTED] request to re-employ [REDACTED]. After much 25X1A9a  
discussion I told Dan that I had no objection to DD/P requesting General Carter's  
permission to hire John in any capacity but that I was not at all sure I would concur.  
if he asked my advice.
